#### MEMORANDUM FOR RECORD

SUBJECT: Approval Authority Action on Findings and Recommendations for an Administrative Investigation into the 28 January 2024 Attack on Tower 22

- 1. I reviewed the above-referenced report of investigation, dated 29 February 2024, concerning the 28 January 2024 attack on Tower 22 in the Kingdom of Jordan that resulted in the death of three U.S. Soldiers. I also reviewed the responses from , which are appended as exhibits 537 and 538.
- 2. I approve the findings and recommendations.
- 3. The DA Form 1574-1, dated 14 March 2023, is rescinded and superseded by the DA Form 1574-1 to which this memorandum is enclosed.
- 4. I authorize the Staff Judge Advocate, or his designee, to release this investigation to appropriate personnel in U.S. Central Command, and other organizations in the U.S. Army when necessary to fulfill a requirement imposed by Army Regulation.
- 5. The point of contact for this memorandum is the Central at DSN

for U.S. Army

Lieutenant General, USA Commanding

#### MEMORANDUM FOR RECORD

SUBJECT: Investigation into 28 January 2024 Attack on Tower 22

- 1. On 28 January 2024, a one-way attack unmanned aerial vehicle struck Tower 22 in the Kingdom of Jordan. This caused the death of three U.S. Soldiers. On 3 February 2024, I appointed an investigation into the incident, under authority of Army Regulation (AR) 638-34, AR 638-8, and AR 15-6. On 14 March 2024, I approved the findings and recommendations of the investigation.
- 2. Prior to my approval, the findings of the investigation were not referred to
  I now direct referral of the potentially adverse
  findings consistent with AR 15-6, paragraph 2-8 and 5-4. I will then consider their
  responses, if provided, and decide whether to approve, disapprove, modify, or add to
  the findings.
- 3. The point of contact for this memorandum is the Central, at DSN

for U.S. Army

FRANK,PATRICK.D OUGLAS.

Date: 2024.07.16 10:34:10 -05'00'

PATRICK D. FRANK Lieutenant General, USA Commanding INVESTIGATION INTO THE FACTS AND CIRCUMSTANCES SURROUNDING THE DEATHS AND INJURIES TO U.S. PERSONNEL INCURRED BY A ONE-WAY ATTACK UNMANNED AERIAL VEHICLE AT TOWER 22, JORDAN ON 28 JANUARY 2024

S: 29 February 2024

ACCG (15-6b1)

3 February 2024

MEMORANDUM FOR BG Sean Davis, Commanding General, 13th Armored Corps Sustainment Command, Camp Arifjan, Kuwait

SUBJECT: (U) Appointment as Investigating Officer

- 1. (CUI) Appointment. You are hereby appointed as an Investigating Officer (IO) pursuant to Army Regulation (AR) 15-6, AR 638-8, and AR 638-34. Pursuant to this duty, you will investigate the facts and circumstances surrounding the deaths and injuries to U.S. personnel incurred by a one-way attack unmanned aerial vehicle (OWAUAV) impact in the vicinity of Tower 22 on or about 28 January 2024.
- 2. (U) This investigation is your primary mission until a report of investigation with all enclosures has received a written legal review and is ready for me to take final action. If you require an extension of your suspense, or if you determine that you need more Assistant IOs, submit a written request to the USARCENT Staff Judge Advocate, for whom I have delegated Assistant IO appointing authority.

#### 3. (U) General Instructions.

a. (U) Before interviewing any parties or making any substantive efforts in your investigation, contact your legal advisors for a legal in-brief. Your legal advisor is

13th Armored Corps Sustainment
The assistant legal advisor is
at
The legal in-brief task may be delegated to an Assistant IO.

b. (U) The purpose of an investigation is to elicit facts, preserve evidence, and make findings and recommendations concerning the incident in question. Inquire into the matters set forth in paragraph 4, below, and provide a thorough analysis of the circumstances surrounding the incident, including a detailed accountability of all personnel killed or wounded, damage to friendly infrastructure, and an inventory of losses to the government. Your findings must be supported by the facts. Your investigation should explore issues with policy, procedures, resources, doctrine, training, and leadership that might have given rise to risks or vulnerabilities identified. If your investigation uncovers misconduct, then you will notify your legal advisor. Upon completion of this investigation, you will complete a report of investigation that conforms to paragraph 6 of this appointment memorandum and AR 15-6.

4. (	Scope of the Investigation / Specific Instructions. You
will	investigate the circumstances surrounding the 28 January 2024 one-way attack,
unn	nanned aerial vehicle (OWAUAV) that impacted Tower 22 in Jordan and resulted in
dea	ths and injuries to U.S. personnel.

- a. (U) Documentary evidence. Prior to conducting interviews (or in conjunction with them, as appropriate), you will obtain the following documentary evidence.
- (1) (U) Contact the military criminal investigative office assigned to investigate the attack. Request any pertinent evidence.
- (2) (U) Contact other federal law enforcement agencies (e.g., Federal Bureau of Investigation) charged with investigating the attack. Request any pertinent evidence.
- (3) (U) Obtain copies of any investigative materials or other relevant products from our joint or foreign partners.
- (4) (U) Obtain aerial images or other illustrations that can be used to graphically illustrate how the attack unfolded, where casualties occurred, and where damage to infrastructure occurred.
- (5) (U) Obtain documentation detailing the command relationship (COMREL) and task organization for the Soldiers at Tower 22.
- (6) (U) Obtain any relevant policies, SOPs, or other published guidance at Tower 22.
- b. (U) Witnesses. During your investigation, you will interview all witnesses whom you believe can provide relevant information. At a minimum, you will interview the following:
  - (1) (U) Any individual wounded in the attack, if available.
- (2) (U) Every senior leader, supervisor, or acting supervisor on scene at the time of the attack.
- (3) All personnel on duty in the Base Defense Operations Center (BDOC) on 28 January 2024, before or during the attack.
- c. (U) Scope. Using a preponderance of the evidence standard, you will make specific findings to answer the following items.
- (1) (U) Present an operational timeline of key events taking place before, during, and after the attack.

- (2) (U) Where specifically did the attack occur at Tower 22?
- (3) (U) Who was responsible for the attack?
- (4) (U) What offensive measures and equipment did the enemy employ?

- (9) (U) Who was killed or wounded in the attack? Identify the ranks / grades, full names, duty positions, units, and Army components.
- (10) (U) What damage did the attack cause to infrastructure at Tower 22? Provide photographs or aerial imagery.
- (11) (U) Were there any failures to follow prescribed guidance at Tower 22 shortly before or during the attack?
  - (12) (U) What successful measures were taken to protect Soldiers at Tower 22?
- 5. (U) Conduct of the Investigation.
- a. (U) Evidence Collection. Conduct this investigation using the procedures outlined in AR 15-6, chapters 3 and 5.
- (1) (U) Witness statements will be written and sworn, when feasible. Consider recording witness statements using DA Form 2823. If it is impractical to obtain a written or sworn statement from a particular witness, you will attest to the accuracy of any transcription or summary of such witness testimony in whatever form it appears in your report. If you do not use DA Form 2823 to record the statement of a witness, consult with your legal advisor to determine if you need to furnish a Privacy Act notification.
- (2) (U) Consult with your legal advisor prior to interviewing any federal civilian employees to verify what additional, or other, rights advisements may be necessary.

- (3) (U) Consult with your legal advisor prior to interviewing personnel employed under a contract with the U.S. Government. This may require a request to conduct the interview through the appropriate contracting officer (KO) or KO representative.
- (4) (U) Your authority to administer an oath during this investigation is Article 136(b)(4), UCMJ.
- (5) (U) No witness can be ordered to provide self-incriminating information, or to divulge privileged attorney-client, patient-provider, or similar confidential information. Otherwise, you may order a service member or civilian employee of the DoD to provide a statement if you believe that they have relevant information concerning their official duties. If you come to suspect a person may have engaged in criminal conduct, you will consult with your legal advisor. Do not attempt to elicit information from a suspect without first advising that person of his or her rights under the Fifth Amendment of the U.S. Constitution or Article 31 of the UCMJ. Use a DA Form 3881 to document your rights advisement and, as applicable, the witness's waiver of the right to not answer questions or consult with an attorney.
- (6) (U) Pursuant to 10 U.S.C. 1219, a Soldier may not be required to sign a statement relating to the origin, incurrence, or aggravation of his or her injury or disease. Any such signed statement against a Soldier's interest is invalid if not first notified of his or her rights. You will notify a Soldier of these rights and obtain a signed waiver before questioning any Soldier about his or her injuries.
- (7) (U) Consistent with AR 15-6, paragraph 3-8d, direct all witnesses who are subject to U.S. Army authority, and request from other witnesses, not to discuss their statements with other witnesses, potential witnesses, or persons who have no official interest in this investigation, until I take final action. Witnesses are not prohibited from discussing concerns relating to this investigation with the Inspector General, Congress, or their chains of command.
- b. (U) Unfavorable information. Should you determine during your investigation that a Soldier should be flagged under provisions of AR 600-8-2, paragraph 2-2, notify your legal advisor. In general, commanders must notify a Soldier within three duty days of initiating a flag. Commanders may delay this notification if it would compromise an ongoing investigation. Make a recommendation on whether you believe it is appropriate to delay initiation of a flag to avoid such compromise. Soldiers might also receive notification of a flag by way of IPPS-A. If you believe this could compromise the investigation, make a recommendation concerning this as well.
- c. (U) Adverse Information Regarding Officers. Consult with your legal advisor to determine if this investigation includes a finding containing potentially adverse information, as defined in the AR 15-6 glossary, regarding a commissioned officer.

- d. (U) Modifying Scope. If during your investigation you uncover facts that could cause me to consider enlarging, restricting, or terminating this investigation, or otherwise modifying any instruction in this appointment memorandum, then immediately report this situation to me, through the USARCENT Staff Judge Advocate, and recommend what action I should take. For example, if you determine that this attack involved friendly fire, then immediately report this to me. If you uncover evidence of foreign partner forces being involved in the hostile act, then immediately report this to me as well.
- 6. (U) **Report of Investigation.** Your report will be organized as outlined below. Portions of this investigation may be released to the primary and secondary next of kin, and should be drafted accordingly, minimizing jargon.
  - a. (U) DA Form 1574-1.
  - b. (U) Investigation Enclosures, as applicable.
- (1) (U) Appointment memorandum (and any supplemental appointment documents).
- (2) (U) Written communications with appointing authority or designee, such as requests for, and approval of, extensions of the suspense date.
  - (3) (U) Explanation of any unusual delays.
  - (4) (U) Privacy Act statements.
  - (5) (U) Chronology of the investigation.
- (6) (U) Witness List, including ranks/grades, full names, duty positions, and units of assignment. If certain witnesses are unavailable, for example, because they were hospitalized, document the information in this enclosure.
- (7) (U) Relevant human resource documents (e.g., orders), if not included as exhibits.
  - c. (U) Executive Summary memorandum.
  - d. (U) Findings and Recommendations memorandum.
  - e. (U) Index of Exhibits.
  - f. (U) Investigation Exhibits.

SUBJECT: (U) Appointment as Investigating Officer

- 7. (U) **Findings.** You will reach your findings by a preponderance of the evidence standard. That is, your findings will be based in evidence, which, after considering all the evidence presented, points to a particular conclusion as being more credible and probable than any other conclusion. A finding is a <u>clear and concise</u> statement of facts that can be readily deduced from evidence in the record. In your report, develop specific findings and cite the evidence that supports your findings. If evidence conflicts (e.g., conflicting witness statements), you must make a finding as to which evidence is more credible and why you believe it to be more credible.
- 8. (U) **Recommendations.** Based on your findings, make recommendations as to what changes, if any, are needed in terms of policy, procedures, resources, doctrine, training, and leadership to mitigate risk and vulnerabilities of similar incidents in the future, as well as recommendations consistent with your findings concerning other items your investigation reveals. Each recommendation will cite to findings that support it, and conform to guidance in AR 15-6.
- 9. (U) Submission.

128

- a. (U) You must submit an electronic copy of your final report of investigation to your legal advisor, who will arrange for a legal review. Consult with your legal advisor throughout your investigation and submit the final product prior to the suspense date. If you have materials that cannot be submitted electronically, then note this in your report of investigation.
- b. (U) Release of Information. Without my authorization, you and the Assistant IOs may not release any information related to this investigation to anyone except the USARCENT Staff Judge Advocate and your legal advisors, unless you are making a protected communication. Consult with your legal advisors for guidance on what constitutes a protected communication.

#### 2. (U) Background.

a. (U) Appointment. On 3 February 2024, I was appointed the lead Investigation Officer by the USARCENT CDR LTG Patrick D. Frank to investigate the facts and circumstances surrounding the attack on Tower 22 on 28 January 2024, with a suspense date of 29 February 2024.<sup>2</sup>

and the Mobile Training Team (MTT), he failed to synchronize and manage the BDOC

Crew transitions to ensure training was completed prior to mission assumption.

b. (U) Scope and Methodology. The Investigative Team developed a thorough and comprehensive plan starting with initial unit reporting, physical site visits and inspections across the battlespace for comparative analysis, detailed evidence collection and review, and a witness interview strategy starting at the lowest level and building into

<sup>&</sup>lt;sup>2</sup> The Investigation Team has made diligent attempts to collect and preserve all documentary evidence responsive to paras. 4.a.1.-4.a.3. in the Appointment Orders, as well as autopsy reports for the KIA. Given the normal processing times for those reports, they are not available to the Investigation Team for inclusion within this report inside of the mandated suspense date of 29FEB24. Coordination efforts have been made and the Investigation Team will notify the Approval Authority and the USARCENT OSJA if and when they are received. See Exh. 319, 514.

AFVG-CG

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

senior leader interviews. The Investigative Team consisting of Investigating Officers broken into multiple sub-teams that collected approximately witness statements and over 300 different physical pieces of evidence, including diagrams, sketches, Standard Operating Procedures (SOPs), Tactics, Techniques, and Procedures (TTPs), After Action Reviews (AARs), emails, photos, imagery, videos, and battle logs.

#### 3. (U) **Facts**.

#### a. (U) Tower 22

I) Tower 22 was originally established as a contingency installation in 1997. It is located in the Northeast corner of the Kingdom of Jordan. It is a small contingency outpost approximately 430m East to West and approximately 700m North to South. This small combat outpost on the outskirts of the USARCENT footprint has the primary task to support and sustain the Al Tanf Garrison (ATG) located approximately 13 miles to its Northwest in the country of Syria. It is manned by approximately Soldiers, Airmen, and Contractors spread across different units and organizations.

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

#### (U) Tower 22 Command Relationship (COMREL) Analysis:

(1) In order to fully explain the facts and circumstances of the attack at Tower 22 on 28 January 2024, and the necessary context and history before January 2024, a threshold understanding of the command relationships and authorities is required. The following will consider and assess whether the COMREL at Tower 22 was vertically and horizontally conducive to base defense through an analysis of the command authorities of Tower 22 units and associated unit leaders in relation to BDOC cell and the mission command structure at Tower 22

<sup>&</sup>lt;sup>2</sup> Exhibit 151.

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22
(3)
c. (U) <u>01 January 2023 - 06 October 2023</u>
(1)
(2) ( ) On 04 January 2023, USARCENT published an order tasking Task Force Spartan (TFS) to provide assistance towards the single pane of glass (SPOG) architecture in support of the USCENTCOM directed Joint All Domain Command and Control (JADC2) and Cloud Based Command and Control (CBC2) Effort. <sup>3</sup> Specifically, Task Force Spartan was ordered to execute the three following tasks:
(a)
(b) Support the unique regional requirements of each BDOC/BADC – train operators in the tactics, techniques, and procedures (TTPs) for unit track ownership, management/reporting, ID Matrix, and engagement as developed through BDOC/BADC/C-UAS Warfighter Working Groups or captured in special instructions (SPINS).
(c) Provide the USARCENT/CFLCC
updates to the USARCENT/CFLCC SPOG architecture.

(3)	
(3)	
(4) (U) On 22 February 2023, TF Spartan published an order aimed at executing USARCENT's order from 04 January 2023. <sup>5</sup> In this order, TF Spartan ordered the Field Artillery (FA) Brigade (BDE) Headquarters (HQ) to execute numerous tasks, including but not limited to:	,
(a) Establish primary, alternate, and contingency beyond line of sight (BLOS) TDLs IAW USARCENT/CFLCC SPOG Architecture.	
(b Coordinate required TDL changes to the SPOG Architecture with the G39 Interface Control Officer or Battle Systems Manager.	
(c)	
(d)	
(e)	
(f)	
(g) Coordinate with Joint Training Center (JTC) & Tower 22 BDOC to train operators in the regional requirements and Tactics Techniques and Practices and (TTPs) for track ownership, management/reporting, ID Matrix and engagement.	3
(h) Coordinate IFRCO C-UAS training for Sector 10 BDOC/BADC with TF Spartan.	l
(5) (U) On 02 June 2023, Army Support Group-Jordan (ASG-J) Directorate Public Works (DPW) initiated a project to repair the guard towers at Tower 22 in accordance with their life cycle timelines. The project was completed on 02 December	
<sup>4</sup> Exhibit 63.

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

## C-UAS CAPABILITIES AT TOWER 22 AND ATG ON 28JAN24

### FIGURE 5

(3) (Senior Leaders at Tower 22 emphasized, initiated, and completed Force Protection projects early and often. As an example, in November of 2021, leaders identified the need for more bunkers, which were ordered and emplaced. At the USARCENT level, it is evident that force protection projects were emphasized, initiated, and completed prior to 28 January 2024 throughout USARCENT locations. Engineer priority of work is directed through the orders process by USARCENT, and generally remain constant over time. USARCENT Engineers utilize a priority rating scheme as a baseline for project prioritization, which ranks "Life, Health, and Safety" and Force Protection/Survivability" as the top two priorities, respectively. The full rating scheme is shown in Figure 7.

<sup>147</sup> Exhibit 276.

## FIGURE 6

(4) ( The Engineer priorities of work are achieved through projects, which are completed by Army Engineers (troop labor) in the Theater Engineer Brigade (TEB) or contracted labor. In Jordan, contracted labor is the primary means of construction due to asset availability, land use agreements with the host nation, and the scope of work. ASG-J DPW completed or initiated roughly 224x contracted projects in Jordan before 28 January 2024. Of the 224x contracted projects, 98x projects (44%) were force protection-related, with 20x force protection contracts at Tower 22 which is approximately 60% of the total construction contracts at Tower 22. The breakdown of contracted labor is listed in Figure 8.

# **Contracted Labor in Jordan Prior to 28 January 2024**

(5) ( ASG-J initiated 39x troop labor projects in Jordan before 28 January 2024. The three main countries who received troop labor in Operation Spartan Shield (OSS) are Kuwait, Kingdom of Saudi Arabia, and Jordan. Over time, Jordan became the primary customer of troop labor in OSS. Additionally, by 28 January 2024, the percentage of force protection troop labor projects increased from 13% in January 2023 to 28%, highlighting the emphasis in force protection. A complete breakdown of the troop labor projects in OSS is shown on Figure 9.

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

- (2) (U) <u>Wounded in Action (WIA)<sup>158</sup></u> As of 29 February 2024, there were 104x USMIL evaluated for being wounded in action, 72x USMIL WIA met Defense Casualty Information Process System (DCIPS) criteria and 32x SM that were evaluated did not meet DCIPS criteria.
- (3) Of the 72x USMIL WIA that met DCIPS, 8x SMs required emergent MEDEVAC to BDSC. Out of those 8x, 3x SMs were categorized as Very Seriously Injured and required onward movement to Landstuhl Regional Medical Center (LRMC)), Germany. Also, out of the 104x evaluated were 14x SMs that were transferred via CASEVAC to Muwaffaq Salti Air Base (MSAB) for concerning signs and symptoms of traumatic brain injury (TBI). One of those 14x SMs was later determined to not meet DCIPS criteria. Lastly, out of 104x SM evaluated, 51x SMs were placed on "quarters", also for TBI. 159
- (4) (U) The following Soldiers were wounded in action at Tower 22 necessitating emergent EVAC to Baghdad Diplomatic Support Center on 28 January 2024, then LMRC on 30 January 2024:

<sup>&</sup>lt;sup>158</sup> **NOTE:** Emails were sent to all WIA with verifiable email addresses with a request to submit a statement. The Investigation Team also coordinated with the WIA's chains of command in order to attempt to get in contact with every individual. Numerous individuals were still unable to respond or provide a statement as of 29 February 2024 due to their injuries or travel for treatment. See Exhibit 298.

<sup>&</sup>lt;sup>159</sup> Exhibit 529.

FIGURES 12-13

k. (U) Were there any failures to follow prescribed guidance at Tower 22 shortly before or during the attack?

(2) All Soldiers on duty on the night shift in the BDOC on 28 January 2024 stated they saw two tracks to the south of Tower 22 on the radar systems. However,

<sup>&</sup>lt;sup>163</sup> Exhibit 223-224; Exhibit 226-230; Exhibit 233-234.

AFVG-CG

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

the Soldiers also stated that the tracks observed to the south of Tower 22 just before the attack appeared to be: "too far away" "moving too slowly" or "possibly birds or trash" - indicating their negligent departure from their own SOP. 164 At the time of the attack, the BDOC crew also admitted they were very focused on watching the Scan Eagle recovery and did not interrogate or assess the unknown air tracks to the south of Tower 22 with the Night Hawk camera. 165

(3) The failure of the BDOC Crew to take the appropriate actions could be contributed to the absence of command oversight, lack of in-house refresher BDOC training, lack of routine battle drill rehearsals, BDOC focus on friendly activity, lack of decentralized decision making, and the absence of the proper leadership in the BDOC. The other potential contributing factor is the

- BDOC Battle Drills. TF Sentinel (C/1-158 IN) has published Tower 22 BDOC Battle Drills, which lists in detail the responsibilities for each position in the BDOC and explains each battle drill in detail. The vast majority of the interviewed BDOC witnesses across all shifts stated that there is not a consistent schedule or routine for exercising or rehearsing the prescribed battle drills by the BDOC crew. The Tower 22 leadership failed to emphasize collective training of "Kill Chains" and Battle Drills commensurate with the 4 minute or less time of summary, it is assessed that the battle drills are inadequate, unrehearsed, and overly centralized.
- (5) BDOC SOP. The knowledge of the BDOC SOP or what leaders could make specific decisions on in the BDOC was not clear among all the BDOC Soldiers interviewed from all shifts. The C/1-158 IN BDOC SOP document clearly states that the is the only assigned position that has the overall authority to utilize when conducting base defense operations regarding the use of EW to counter enemy UAS. 168 It was not clear from interviewing the Soldiers assigned to the BDOC crews if the had the authority to authorize or in the absence of the

<sup>168</sup> Exhibit 308.

<sup>169</sup> Exhibit 220-231; Exhibit 233-236.

AFVG-CG

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

the BDOC Crews were not properly training or rehearsing their own battle drills. It is assessed that the BDOC night shift crew relies heavily on the decision-making authority of the . We further assess that the BDOC night shift crew did not feel fully empowered to make important decisions in the absence of the even when faced with imminent danger to the base.

(6) <u>BDOC Leadership.</u> In addition, we do assess that the BDOC night shift crew was not properly manned with the appropriate rank and experience level required of those positions given the current threat environment at Tower 22 and the important decisions required to protect the personnel on the base despite available Officers and senior NCOs on Tower 22. <sup>17</sup>

The BDOC Night Battle Captain was in the rank of SSG/E-6, but the BDOC Night Battle Captain position should be manned by an Officer.

- (7) <u>BDOC Training Conducted.</u> The C/1-158 IN BDOC Crews (15x total Personnel) from all three shifts as well as 3x other leaders from Tower 22 attended the USARCENT "Green Sands Mobile" Integrated Fires Rapid Capabilities (IFRCO) Mobile Training Team (MTT) training for rom 11-15 December of 2023. 172 We assess that the Soldiers on duty in the BDOC during the 28 January 2024 attack on Tower 22 possessed sufficient training. There was not any additional BDOC training organized or completed by the Battalion or Brigade for the Tower 22 BDOC crew that were assigned to C/1-158 IN and who were on duty during the 28 January 2024 attack in contradiction to the Task Force Spartan Commanding General's intent as described in Key Task #3 "Managing Transitions." 173
- (8) <u>USARCENT BDOC Training Guidance.</u> There were numerous orders published prior to 28 January 2024 addressing BDOC training responsibilities at echelons above the Tower 22 leadership. On 6 December 2022 USCENTCOM published the Single Pane of Glass Night Order to all components, which tasked USARCENT to

operations order to train BDOC crews in the USARCENT AOR. <sup>175</sup> The order states the following: "Support the unique regional requirements of each BDOC/BADC – train operators in the tactics, techniques, and procedures (TTPs) for unit track ownership,

<sup>171</sup> Exhibit 48.

<sup>&</sup>lt;sup>170</sup> Exhibit 161.

management/reporting, ID Matrix, and engagement as developed through BDOC/BADC/C-UAS Warfighter Working Groups or captured in special instructions (SPINS)". This order was not modified or rescinded by USARCENT.

- (9) Task Force Spartan (28<sup>th</sup> Infantry Division) BDOC Training Guidance. On 22 February 2023 TF Spartan, 28<sup>th</sup> ID, published an operations order to the previously assigned 45<sup>th</sup> Field Artillery Brigade (TF Thunder) located at JTC, Jordan. Task Force Spartan order stated the following: Coordinate with Joint Training Center (JTC) & Tower 22 BDOC to train operators in the regional requirements and TTPs for track ownership, management, reporting, ID Matrix, and engagement. TF Thunder, confirmed that during the 28<sup>th</sup> ID rotation and under the former TF Thunder, 45<sup>th</sup> FAB, that his unit attempted to train the Tower 22 BDOC Crews, but the former was not supportive of the training. The current TF Thunder, 138th Field Artillery Brigade when interviewed stated that they were not tasked in the 40<sup>th</sup> ID base order to conduct any BDOC related training in Jordan or any other locations in the ARCENT AOR.
- Task Force Spartan (40th Infantry Division) BDOC Training Guidance
  The current 40th Infantry Division Task Force Spartan G39 section
  his sworn statement dated 16 FEB 2024 claimed to be unaware of the 2023 order referenced above tasking TF Spartan to train BDOCs from USARCENT. However,
  was aware that the previous TF Spartan Headquarters under the 28th ID
  was conducting BDOC training. Was of the understanding that
  USARCENT was going to publish another order specifically tasking the 40th ID G-39 to conduct BDOC training. Stated that his command made a conscious decision not to execute a formalized training and oversight program for the BDOCs in the ARCENT AOR upon their assumption of the mission. We assess that Task Force Spartan considers the Green Sands MTT as fulfilling this requirement.
- (11) Task Force Spartan (40th Infantry Division) BDOC Training Conducted at Tower 22 IAW USARCENT SPOG ORDER.

  TF Spartan G39 did visit and conduct a site assessment of Tower 22 on several occasions in September and October 2023.<sup>184</sup> completed his

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

comprehensive C-UAS and Force Protection assessment of the operations at Tower 22 and published his findings in an information paper. He shared this detailed paper, including photos and specific vulnerabilities and recommendations with his immediate Task Force Spartan G39 chain of command and Tower 22 has some of the recommendations made to the Information paper were implemented, including raising the Also, during these visits, Conducted C-UAS training and provided recommendations to the C/1-153 IN BDOC Crew Soldiers. The commendations that were not implemented included: stabilizing and not rotating BDOC Crews and executing refresher in-house training to maintain proficiency based on the perishability of BDOC skills.

## I. (U) What successful measures were taken to protect Soldiers at Tower 22?

- Adequate supplies, personnel, medical capabilities, and training were available and staged for medical and resuscitative management of casualties at Tower 22 following the attack, and for the transfer of the critically injured to a higher echelon of care. The relatively small size of the base (430m) and large number (seven total) of casualty collection points (CCPs), Triage (Chapel), Role 1 and 2 medical assets, and Ground Surgical Team (GST), contributed to the efficient and timely extrication, medical evaluation and care to the injured. The combination of Joint medical assets, to include: U.S. Army ground and air medical providers with the U.S. Air Force Combat Search and Rescue PJs (CSAR) all afforded rapid medical evaluation, treatment, stabilization and efficient transfer to a higher echelon of care. Base-wide MASCAL exercises and rehearsals prior to the blast, with the most recent drill occurring three days prior to the attack assisted in the integration of medical response and services.
- Blast mitigation measures at Tower 22 consisted of bunkers, barriers, and separation of buildings to reduce the effects of a blast and prevent shrapnel from damaging buildings and injuring occupants. Tower 22 had total bunkers adequately placed across the base capable of supporting up-t ersonnel, approximately twice the population of Tower 22. 188 Barriers (T-Wall and HESCO) were placed to protect critical infrastructure and personnel. 189 While the CHUs at Tower 22 were separated into structure groups consisting of six to eight containerized housing units in accordance with UFC 4-010-01, their separation distance at Tower 22 was closer than standard. Additionally, all structure groups had two-meter-tall (6.6ft) T-Walls that drastically mitigated the spread of fragmentation up to the current height of the T-wall. 190

AFVG-CG

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

(3) (U) Fire mitigation measures at Tower 22 were adequate and consisted of an U.S. Air Force firefighter crew, as well as living quarters and office spaces that were equipped with fire extinguishers. CHUs made of an aluminum body reduced the spread of fire, and the spacing between the CHUs would further mitigate any spread of fire within the impacted structure group.

# 5. (U) Additional Findings.

a. (U) In addition to the 12 questions originally directed in the scope of my Appointment Orders, I also make the additional findings below.

b. (U) Regarding the Task Force Sentinel , I find that				
did not properly understand	or exert his Command Relationship			
(COMREL) authorities to fulfill his	intent of managing transitions			
of providing trained, manned, and equipped u	units to control the current operations.			
a (II) Degerding the Took Force Thunder	l find			

c. (U) Regarding the Task Force Thunder , I find that did not properly understand or exert his Command Relationship (COMREL) authorities to fulfill his intent of managing transitions of providing trained, manned, and equipped units to control the current operations.

d.	Regarding the Tower 22	, I find tha	ıt
u.	ricyalully life rowel 22	, i iiiu uia	L

(1) did not adequately visualize his battlespace and adjust to the threat, he did not sufficiently emphasize the collective training of his CUAS BDOC

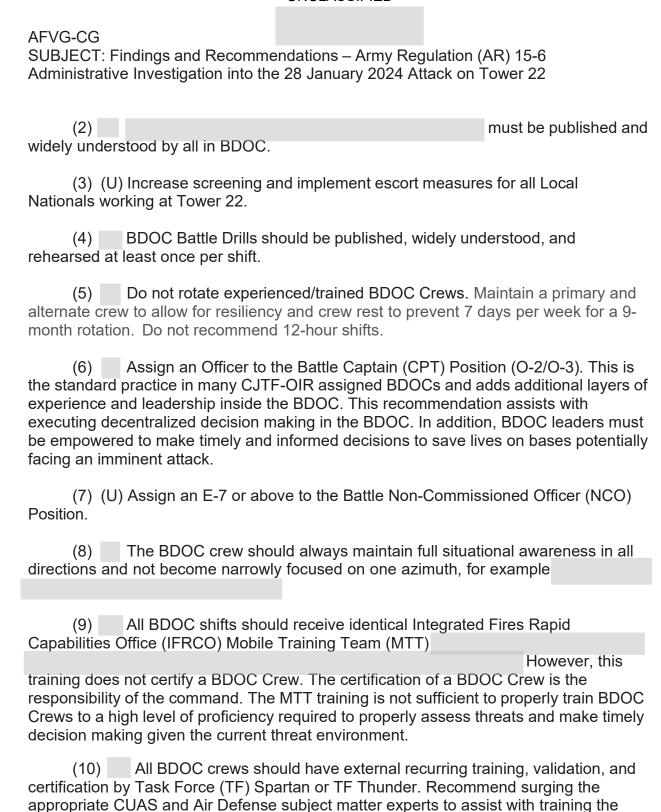

Λ	$\Gamma$	1	$\sim$	$\sim$	$\sim$
А	г١	v	G-	U	G

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

operations, he failed to develop a full understanding of his own not adequately understand his own authorities for Force Protection, and he was negligent in not establishing a threat informed Force Protection/Uniform PPE posture.

- did make important efforts, and was successful, in building a team of teams at Tower and developing a unity of effort there. His efforts positively improved Tower 22 and based on his training emphasis they were well prepared for ground defensive operations and MASCAL responses. Although he did provide his BDOC Crews training by leveraging both the Task Force Spartan Division G39 Assets and the Mobile Training Team (MTT), he failed to synchronize and manage the BDOC Crew transitions to ensure training was completed prior to mission assumption.
  - e. Regarding the Tower 22 BDOC Operations I find that:
- (1) A lack of Key Leadership presence, cumulative exhaustion from an insufficient number of BDOC Crew Shifts, inadequate, poorly rehearsed, and overly centralized battle drills all directly contributed to the failures of the BDOC Crew on 28 January 2024.
- (2) Leadership emphasis and focus on optimization and collective training of Kill Chains and Battle Drills is equally or more important than the technological integration of . Training must be Command certified and repeatedly tested.
- (3) Tower 22 lived with a presumption that the "South was Safe," ATG provides early warning, and Tower 22 was not a combat outpost this led to a lack of Bunker culture and indiscipline.
- 7. (U) **Recommendations.** Based on my assessment of the totality of the facts and evidence, all findings made above, and my rank, training, experience, education, age, and best judgement I make the following recommendations:
- a. **(U) Immediate Action Recommendations.** On 17 February 2024, after the collection of over 250+ total pieces of evidence and witness statements, the following recommendations for immediate action were made to prevent further loss of life and mitigate further risk to force:
- (1) The night shift BDOC crew should be the most trained and competent crew assigned to the base.

<sup>&</sup>lt;sup>191</sup> Pursuant to guidance from the Approval Authority, these recommendations were published on 17 February 2024 across theater in an "Interim Report" in order to immediately improve force protection measures to protect personnel, equipment, and facilities. They are included here as well in the final report for the sake of completeness.

Tower 22 BDOC Crew.

### AFVG-CG

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

b. (U) 28 January 2024 Attack on Tower 22 Recommendations.

## (U) Intel:

- (1) (U) Employ and maintain a full time 24/7 Intelligence Analyst Cell at Tower 22.
- (2)

## BDOC:

- (3) Direct the removal all non-mission essential NIPR computers from the Tower 22 BDOC.
- (4) Decentralize decision making in the BDOC to the lowest level possible to not delay important commands such as ordering Soldiers to occupy bunkers and the
- (5) Prior to assumption of BDOC duties during unit transitions, crews must be trained, and command certified. Leaders at every echelon of command must be involved in the training and certification of BDOC Crews across the USCENTCOM AOR.
- (6 ) Maintain six to eight-hour BDOC crew shifts to maintain a high level of alertness while on shift and do not assign the BDOC crew Soldiers to other additional duties outside their shifts. Commanders must build and train additional crews to protect adequate rest cycles. It is recommended to have a total of five (5) separate BDOC crews that are certified for each base.
- (7) Rehearse BDOC Crew Battle Drills every shift to build muscle memory and to sustain the efficiency of the crew functions. Ensure that BDOC Crews are recording engagements.
- (8) Unit leadership must be involved and have a vested interest in training BDOC crews. In addition, localized based training programs have proven to be successful in CJTF-OIR units like ATG.

## (U) Mission Command:

(9) Maintain Tower 22 CALFEX training for Base Defense Readiness but prioritize, schedule, and adjust training calendars based on threat reporting and assessment.

### AFVG-CG

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

## (U) Protection:

- (10) (U) Conduct periodic base wide drills and rehearsals for all shifts, to include hours of limited visibility at varying frequency and times. Implement system for validating 100% participation and consider UCMJ for willful violations.
- (11) (U) Codify and publish SECFOR Battle Drill actions that integrate all installation personnel to ensure widest understanding of personnel actions/requirements in a Base Defense scenario for Tower 22.
- (12) Develop and implement comprehensive base wide immediate action drill in the event of inbound Theater Ballistic Missile for Tower 22 (similar to ATG).
- (13) (U) SECFOR Command Team, under the guidance of the designated as the principal team for overall Base Defense plan for Tower 22.

## (U) Engineering:

(14)(U) Continue to increase expedient compartmentalization of living areas with concrete and earth barriers at Tower 22.

AFVG-CG

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22
(17) In addition to continuing to utilize FRAGORDs to re-prioritize Engineering assets, modify USARCENT Engineer Priority of Work Decision Criteria by base and threat assessment as opposed to a country specific centric model.
(18) (U) Leverage the use of the U.S. Army Corps of Engineers Reachback Operations Center (UROC) for engineering RFIs, to include imagery, structural analysis, and building plans.
(U) Counter-UAS:
(19) Design and Implement an Integrated AMD and ADAM Cells and C-UAS infrastructure and architecture at Echelon that leverages current and future surface-to-air missile platforms to provide higher headquarters with a complete Air Threat Picture and local BDOCs Overwatch.
(U) <u>Medical:</u>
(20) (U) Explore optimized MEDEVAC options to the most immediate ROLE 3 (consider Specialized Hospital, Amman Jordan) regardless of alignment or geographic boundaries. Develop and rehearse to execute the most expedient and effective MEDEVAC flight plan.
c. (U) Theater Recommendations & Refinements.
(U) <u>Intel</u> :
(21) Conduct a spectral analysis of all Tower 22 emitters for deconfliction and characterize any possible threat emitters near Tower 22. Make recommendations for repositioning antenna arrays or other obstacles not conducive to operations.
(22)
(23)
(24)

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

# BDOC:

- (25) Build and Implement a Tower 22 ATG 2-Base engagement strategy that is mutually supportive and creates defense-in-depth.
- (26) Revise the FTN to account for BDOC crews and associated leadership to have them trained on BDOC and CUAS operations and systems of systems prior to operational deployment.
- (27) I) Refine and republish the previously established USARCENT tasking order, which directs TF Spartan to establish a recurring training, validation, and certification program led by TF Spartan and/or the assigned Field Artillery Brigade Air Defense / Air Management cell. The Training and Certification concept should consist of Gunnery Style Tables to be completely certified. The certification must take place prior to assumption of duties by the unit. BDOC Crews should be certified together and tracked and managed at higher headquarters similar to the armor or aviation crew models.
- a. The Gunnery Style Table recommendations are the following: Table 1: (IFRCO) Mobile Training Team (MTT)

  training completed prior to BDOC assumption, Table 2: Initial External Evaluation and Certification, Table 3: Subsequent External Evaluations and In-House command led refresher training throughout the deployment. It is recommended that the certifying official is the commander (IAW AR 600-20) of the base in which the BDOC crews are assigned, or the higher level headquarters as appropriate.

(28)

### (U) Mission Command:

(29) Maintain effective and efficient PROWORDS Usage (AVENGERS).

SUBJECT: Findings and Recommendations – Army Regulation (AR) 15-6 Administrative Investigation into the 28 January 2024 Attack on Tower 22

(30) Specify in the USARCENT OPORD 5 Transitions that the next higher command must validate all BDOCs, staff directorates, and support functions immediately following completion of RIPTOA.

## (U) Protection:

(31) (U) As Tower 22 transitions into hard stand building structures with improved hardening ensure that automated sprinkler and other fire mitigation measures are emplaced and validated.

## (U) Engineering:

- (32) (U) Increase standoff and separation distances of living areas in accordance with the Unified Facilities Criteria (UFC) 4-010-01.
- (33) (U) Continue to develop the Loyalty Support Services (LSS) buildout plan, emphasizing building separation and durability.
- (34) (U) Continue to assess and fortify bases in the region ahead of the pacing threat by utilizing emerging enemy TTPs to inform improvements.

## (U) Counter-UAS:

(35) Recommend that USARCENT coordinate with USCENTCOM Headquarters to collaborate with the Joint CUAS Office, Joint CUAS University, HQDA, FORSCOM, and 1st Army to establish a comprehensive and standardized BDOC / CUAS Crew training program for all units prior to deploying to a theater requiring CUAS capabilities/mission. This program should include recent experiences, TTPs, and Lessons Learned from across the CENTCOM AOR.

### (U) Medical:

- (36) (U) Continue to execute regular, realistic, and challenging MASCAL exercises at Tower 22.
- (37) Ontinue to maintain the Role 1 at Tower 22 with an experienced medical provider.

# d. (U) Recommendations Concerning the

#### **CHRONOLOGY OF INVESTIGATION**

<u>Date</u>	<u>Event</u>
29 Jan 24	Notified of investigation
31 Jan 24	Notified assistant IOs of investigation
1 Feb 24	Visited forensics lab on Camp Arifjan and received a brief on data collected from the retrieved UAS
1 Feb 24	1TSC team departed for and arrived at the Joint Training Center (JTC)
2 Feb 24	Conducted initial site visit of Tower 22 (T22)
2 Feb 24	ARCENT team arrived in theater at JTC
2 Feb 24	Requested T22 Base Defense Plans, BDOC SOP, FP Assessment from ASG-Jordan
3 Feb 24	Received signed appointment orders from LTG Frank
3 Feb 24	Received initial legal in-brief
3 Feb 24	Established investigative strategy and responsibility with all assistant IOs
3 Feb 24	Requested T22 Base Defense Plans, BDOC SOP, FP Assessment from TF Spartan G36
3 Feb 24	Requested pertinent information from assigned to the T22 case
3 Feb 24	Requested and received the following information from T22

- 1. List of all personnel on T22 at the time of the incident
- 2. Medical SOP for T22, dates of MASCAL exercises for the last 90 days
- 3. Maps with locations of CCP/Medical bunkers at T22
- 4. BDOC SOP for T22
- 5. Force Protection improvement projects in the last 90 days
- 6. List of currently scheduled force protection improvements
- 7. Base Defense Plan/SOP
- 8. Name and contact information for the Intelligence POC at T22
- 9. SECFOR leadership and manning roster
- 10. SECFOR shift schedule and manning posture
- 11. BDOC manning assessment, to include:
  - a. PAX on duty per shift

	<ul> <li>b. BDOC roster by duty position</li> <li>c. Shift schedule</li> <li>d. Identification of personnel on shift immediately prior to and during the incident</li> <li>e. Identification of leadership present during the incident</li> </ul>
3 Feb 24	Requested mission data from T22 Scan Eagle site lead
4 Feb 24	Obtained FAAD Playback 28JAN 0238Z – 0243Z
4 Feb 24	Obtained C-UAS N.O. tasking components to train BDOCs to their unique regional requirements
4 Feb 24	Requested TFS OSS C-UAS SOP from 40ID G39
4 Feb 24	Requested BOS-I info, improvement projects in the last 90 days and for next 6 months, ASG-J vulnerability assessments, and ASG-J mandated force protection exercises
5 Feb 24	Established forward investigative operations center at H5 using tactical network
5 Feb 24	Conducted follow-up T22 site visit to identify key locations of interest and viable interview sites
6 Feb 24	All assistant IOs attended seminar on interviewing witnesses affected by trauma
6 Feb 24	Identified key witnesses based on placement on T22 BDOC and SECFOR rosters and based on required immediacy of interview
6 Feb 24	Refined interview strategy for key witnesses
6 Feb 24	Requested and received counterintelligence reports from
6 Feb 24	Requested and received weather analysis for day of attack from
7 Feb 24	Postponed scheduled witness interviews at T22 due to host nation military emergency on highway between H5 and T22
7 Feb 24	1TSC BH and arrived at H5 to support witnesses
8 Feb 24	Interviewed T22 BDOC night shift personnel at T22
8 Feb 24	Interviewed T22 SECFOR night shift personnel at T22
8 Feb 24	Interviewed ScanEagle team personnel at T22

8 Feb 24	Interviewed T22 DUSTOFF persor	nnel at T22
8 Feb 24	Interviewed T22 GST personnel at	t T22
8 Feb 24	Interviewed EOD personnel at T22	2
8 Feb 24	Interviewed	at T22
8 Feb 24	Obtained four video files from	
9 Feb 24	Interviewed of T2	22 BDOC night shift at JTC
10 Feb 24	Interviewed medical personnel at 1	Т22
10 Feb 24	Interviewed T22 SECFOR personr	nel at T22
11 Feb 24	Interviewed T22 BDOC day shift a	nd swing shift personnel at T22
11 Feb 24	Interviewed additional ScanEagle t	team personnel at T22
12 Feb 24	Interviewed additional medical pers	sonnel at T22
13 Feb 24	Coordinated with CJTF-OIR person to At Tanf Garrison (ATG), Syria to	
13 Feb 24	Interviewed T22 BDOC leadership	at T22
14 Feb 24	Consolidated evidence for knowled	dge management purposes
14 Feb 24	Analyzed consolidated evidence a findings	nd workshopped key preliminary
15 Feb 24	Departed H5 to JTC to begin deve and executive briefing products	loping final Report of Investigation
15 Feb 24	Interviewed	, at JTC
15 Feb 24	arrived at JTC to	o develop executive briefing
16 Feb 24	Developed internal executive summanagement in preparation for wri Interim EXSUM	S .
17 Feb 24	Interviewed engineering personnel	I at MSAB
17 Feb 24	Conducted COMREL interviews via	a email at JTC
17 Feb 24	Workshopped key immediate reco	mmendations based on internal
18 Feb 24	Conducted AMR movement from T	Γ22 to ATG
18 Feb 24	Interviewed ATG leadership at ATG	G

19 Feb 24	Consolidated ATG evidence for knowledge mana	gement	purposes
19 Feb 24	Drafted and shared Investigative Update and Intekey immediate recommendations to enhance bas prevent loss of life		
20 Feb 24	Identified interview strategy for T22 and ASG-J le	adershi	р
20 Feb 24	Requested RFS exhibit from		
20 Feb 24	Workshopped final Report of Investigation, includ Recommendations	ing Find	ings and
20 Feb 24	Sent mass RFI to all WIA Soldiers		
21 Feb 24	Interviewed		at JTC
21 Feb 24	Interviewed	, at T22	2
21 Feb 24	Interviewed	, at <sup>-</sup>	Т22
22 Feb 24	Workshopped final Report of Investigation and exproducts	ecutive	briefing
23 Feb 24	Interviewed	at JTC	
23 Feb 24	Received T22 C-UAS working group slides from		
23 Feb 24	Developed due outs for executive briefing tools be BG Davis	ased on	input from
24 Feb 24	Interviewed	at J	ITC
24 Feb 24	Received several exhibits from		
25 Feb 24	Workshopped final Report of Investigation and exproducts	ecutive	briefing
26 Feb 24	Conducted final internal executive brief to BG Da	vis	
26 Feb 24	Conducted rehearsal for executive brief to Appoir	ntment A	uthority
27 Feb 24	Conducted final executive brief to Appointment A	uthority	
28 Feb 24	Made final edits to final Report of Investigation		
28 Feb 24	Made final edits to operational timeline		
28 Feb 24	Made final edits to Findings and Recommendatio	ns	
29 Feb 24	Submitted final Report of Investigation		
1 Mar 24	1TSC team departed for and arrived at Camp Arit	jan

Are the launch and recovery times for SCAN EAGLE too predictable? Could the threat observe this repeated activity and assess a vulnerability?  I am 100% confident that sUAS observation in November and December along with our predictable launch and recovery times contributed to the successful one-way UAS attack on 28 JAN 2024. We also stay in our STAMP ROZ for 8-10 minutes with the SCAN EAGLE lights on during our approach for landing with no change in our procedures day to day.							
Was there any unusual activity on 27-28 JAN 2024 that you want to highlight? Yes- on the night of the attack, I don't remember whether it was late on the 27th or early on the 28th, the BDOC reported there was a laser being shined on the perimeter of Tower 22, coming from Ruqban (NFI) village in Syria. BDOC asked if we could use SCAN EAGLE to find the laser. SCAN EAGLE was unable to detect the origin of the laser.							
Have you witnessed Electro-ma	gnetic interference (EMI)	at Tower 22,	and has this a	ctivity affe	cted SCAN	EAGLE operations?	
Yes-we receive purposeful blas intelligence in the MIRC chat a to receive AGM (NFI) software need the antennae for it.	bout a bread truck near R	aqban that may	y have been th	ne source fo	or EMI inter	I remember ATG passed us ference. I think we are supposed en it's in the air. I believe we still

Scan Eagle STATEMENT OF TAKEN AT Kin	e Compound, Tower 22, ngdom of Jordan DATED 20240208
9. STATEMENT (Continued)  Describe your shift the day of the One-Way Unmanned Aerial Vehicle attack on Tow	ver 22. Kingdom of Jordan, 28 IAN 2024
Describe your shift the day of the One-Way Unmanned Aerial Vehicle attack on Tow I began my shift by hitting the gym, took over flying the night bird at 0230. At that perfect and was scanning the ground in vicinity of Ruqban. I remember calling "safe on during recovery, and shortly after I heard the explosion on Tower 22. I ran out of the hand at the SCAN EAGLE compound, and met and on the flight line. I at of the explosion. I jumped up on the nearest HESCO barrier to see where the smoke of (NFI), who is at MSAB now. I and someone else had a litter with a casualt position. I told me to "get in there-numerous people walking around. They seemed disoriented, I think they were concurrently running into an room wall was pushed in, in evening clothes, and was exhibiting sings of concussion. I grabbed a ladder near Unit (CHU) because I saw of the CHU (NFI). A person followed me unit of the case of the case of the chulk of the chulk of the case of the chulk of the ch	oint, the SCAN EAGLE was between 4K and 8K deck" as the SCAN EAGLE hit the Sky Hook GCS, grabbed my individual medical kit I had onsked what happened, they pointed in the direction was coming from. As I was running to the site, I saw y on it. They were carrying the litter in the UP and walls (wreckage) blocking the way; I saw seed. Some were pulling at the wreckage. I and the was a ladder; I think he was a ladder; I think he was a ladder; I think he was a ladder, but we continued to do our checks in and we moved her onto the litter and carefully on Point (CCP, at the Chaplain's Office). The whole the CHU, I saw a hand under the rubble. The We placed the me CCP. I remember there was no fire, just
up. The female was already in the CCP when we brought Williams in. I remember chanything. I remember making coffee to try to assist those still triaging the site and assist the day SCAN EAGLE in the air, but there was issues with pre-flight checks before (	to see if they needed sisting with MACE exams. I remember trying to get
Is there anything else you would like to add?	
Yes. I feel like there was a lackadaisical attitude on Tower 22 before the attack on 28 happened here and nothing will happen. This base is not run as a combat outpost. The while the other units are minimally participating in the protection and operations of there is no military unit cohesiveness overall for Tower 22.	ere are a few units that do the bulk of the work,
Additionally, you should speak to the Air Force maintainer who was on the flight line the time of the attack. Also, you should speak to former ARGENTECF on events leading up to the attack. He no longer works for the company but can be re resides in Michigan).	I SCAN EAGLE FSR who will have information
EMI *follow up 11Feb 2024: during regular ISR operations in Ruqban, Scaneagle be	gan taking heavy C2 and comm hits. These hits
were odd given that they did not effect the GPS but the camera. I lost the ability to co	ontrol the camera and the camera quality became
heavily degraded. We RTB'd and the aircraft was receiving commands from the GC	S intermittently and was difficult to control.
the aircraft was flying as if it had a mind of its own and its behavior was contradictor	ry of its programing. The C2 hits never stopped and
it took us eight attempts before safely landing the aircraft. The T-22 battle captain car signature that was very bright located south of base in Jordan. It is unclear if this was looking into given the approximate location to an abandoned COP IVO the grid.	me to the GCS and gave us a grid for an IR the source of EMI or not, but I believe it is worth

TFS G2 works with T22 and ASG-J for intelligence sharing both from the TFS Main at CAKU and TFS-FWD at JTC, Jordan. The TFS-FWD G2 team has near-daily contact with T22 and ASG-J. In addition, ASG-J is invited to participate in the TFS G2/S2 and IC Collaboration syncs. In late September, we worked with the TFS CEMA team to send trainers to ensure the SMs at T22 were trained on the present at T22 at that time and practice those battle drills. In addition, TFS CEMA Chief wrote a white paper describing the force protection concerns and potential OWAUAS threat to T22.

Please describe your understanding of the threat to Tower 22, Jordan post 7 OCT 2023.

Following the Hamas attack in Israel, threat reporting increased across the CENTCOM AOR. The threat was primarily in the CJTF-OIR AOR, but TFS G2 was always concerned about Jordan, and especially T22, due to its location between Syria/Iraq and Israel and its proximity to At Tanf Garrison (ATG), Syria. Following the resumption of attacks by Iranian Aligned Militia Groups (IAMG) in CJTF-OIR AOR on 18OCT23, TFS G2 increased our focus on threat reporting and force protection concerns related to T22. We assessed that SIGINT and OSINT were most likely to provide early warning of a threat or attack on T22.

Please describe your understanding of the threat to Tower 22 leading up to and after the 2x OWAUAS attack on ATG/Tower 22 on 23 OCT. Immediately following the OWAUAS attack on T22 on 23 OCT23, TFS G2 worked with CJTF-OIR and 513th MIB(T) to identify whether the OWAUAS was truly targeting T22 or whether it was intended for ATG. We disseminated the information once it was confirmed that T22 was almost certainly the target. In addition, we confirmed with T22 what cUAS actions were employed in response to the threat and assessed that no further EW/cUAS training was necessary at that time. TFS G2 noted that the attack was potentially claimed in OSINT prior to execution: "on 23 October 23 2023, unspecified militants conducted an unspecified attack, which targeted three unspecified U.S. Forces positions in unspecified areas in the Middle East." In addition, TFS G2 noted that ATG, Syria was providing OSINT tippers to T22 regularly due to their proximity.

What intelligence systems or forms of communication does TF-S G2 use to communicate with Tower 22? What battle rhythm events are conducted, if any?

T22 has SVoIP, SIPR, and SVTC available. T22 uses ChatSurfer on SIPR and both TFS Main and TFS-FWD G2 participate in T22's room. T22 does not participate directly in any G2 battle rhythm events but they receive an intelligence update at the CoS Sync (Tu/Th/Sa) and COIC Sync (Mon-Fri and some Saturdays). In addition, TFS-FWD G2 passes information to T22 through SIPR email, SIPR ChatSurfer, and SVoIP. Typically, TFS Main G2 does not communicate with T22 directly, but if urgent situations arise the G2 ensures that either TFS-FWD G2 or the G33 at either TFS Main or TFS-FWD have communicated the information to T22 at the secret level.

Al-Tanf Garrison, Syria	20240216	1400	
5. LAST NAME, FIRST NAME, MIDDLE NAME	6. SSN	7. GRADE/ST	TATUS
8. ORGANIZATION OR ADDRESS			

, WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

Q1: What is your unit, MOS, duty position, and DoDID?

A1: Unit: 1-89 CAV, MOS: 35A, Duty Position:

Q2: When did you arrive at ATG, and when do you expect to redeploy?

A2: I arrived at ATG O/A . I expect to redeploy O/A

Q3: Where do you currently live on ATG?

A3: I currently live in

Q4: How long have you been assigned to your duty position at ATG?

A4: I have been in the same duty position since arriving at ATG O/A 16JUL2023.

Q5: How is your staff arrayed? Are there Troops to Task and/or personnel rosters that describe this arrangement?

À5: Our staff is arrayed by Warfighting Functions (Intel-S2, Sustainment - S1, S4, MEDO, etc.). We generally fill our staff sections with personnel in their MTOE positions (i.e. all 35 Series are in the Intel warfighting function). There is not a Troops to Task that I am aware that specifically delineates this.

Q6: What is the composition of your staff? In other words, which duty positions exist within your staff, and how would you describe their

A6: Our staff follows the normal Army staff sections (S1, S2, S3, S4, S6). Each section has at least three personnel and their roles align with that staff sections' traditional functions.

O7: Are there any SOPs that describe the roles of your staff?

A7: Yes. We have a TACOP and a PSOP for both operations and planning.

Q8: How often do you and your staff rehearse battle drills while on shift?

A8: Our BDOC rehearses battle drills every two weeks or so. We conduct Virtual Sands exercises with KINGPIN. We also have our internal "Armadillo Sands", which incorporates more base defense activities than Virtual Sands.

Q9: How often do your staff rotate?

A9: Our actual staff sections (S1, S2, S4, etc.) do not rotate. Our "Battle Staff" (the BDOC crews) rotate shifts monthly. For example, the team on shift from 0500-1300 will move to the 1300-2100 shift. They still conduct only BDOC duties.

Q10: How would you describe the COMREL at ATG? When was it published? When was it last changed?

À10: TF Armadillo is the main unit at ATG. TF Armadillo is assigned to our organic parent BDE, 2/10 IBCT (TF Guardian). I am not aware of any COMREL publication or changes.

O11: How would you describe the level of variance in your staff's battle rhythm? In other words, does your staff usually perform similar duties at similar times during different days, or do your staff usually perform similar duties at different times during different days? All:Our staff has little variance in our battle rhythm. We usually conduct similar duties at similar times during different days.

5. LAST NAME, FIRST NAME, MIDDLE NAME	6. SSN	7. GRADE/S	TATUS
8. ORGANIZATION OR ADDRESS			
HHT, 1-89 CAV, 2IBCT (TF Armadillo)			

9. I,

, WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

Q1: What is your unit, MOS, duty position, and DoDID?

A1: Unit: 1-89 CAV, MOS: 35A, Duty Position:

Q2: When did you arrive at ATG, and when do you expect to redeploy?

A2: I arrived at ATG O/A 16JUL2023. I expect to redeploy O/A 06APR2024.

Q3: Where do you currently live on ATG?

A3: I currently live in

Q4: How long have you been assigned to your duty position at ATG?

A4: I have been in the same duty position since arriving at ATG O/A 16JUL2023.

Q5: How is your staff arrayed? Are there Troops to Task and/or personnel rosters that describe this arrangement?

A5: Our staff is arrayed by Warfighting Functions (Intel-S2, Sustainment - S1, S4, MEDO, etc.). We generally fill our staff sections with personnel in their MTOE positions (i.e. all 35 Series are in the Intel warfighting function). There is not a Troops to Task that I am aware that specifically delineates this.

Q6: What is the composition of your staff? In other words, which duty positions exist within your staff, and how would you describe their roles?

A6: Our staff follows the normal Army staff sections (S1, S2, S3, S4, S6). Each section has at least three personnel and their roles align with that staff sections' traditional functions.

O7: Are there any SOPs that describe the roles of your staff?

A7: Yes. We have a TACOP and a PSOP for both operations and planning.

Q8: How often do you and your staff rehearse battle drills while on shift?

A8: Our BDOC rehearses battle drills every two weeks or so. We conduct Virtual Sands exercises with KINGPIN. We also have our internal "Armadillo Sands", which incorporates more base defense activities than Virtual Sands.

Q9: How often do your staff rotate?

A9: Our actual staff sections (S1, S2, S4, etc.) do not rotate. Our "Battle Staff" (the BDOC crews) rotate shifts monthly. For example, the team on shift from 0500-1300 will move to the 1300-2100 shift. They still conduct only BDOC duties.

Q10: How would you describe the COMREL at ATG? When was it published? When was it last changed?

A10: TF Armadillo is the main unit at ATG. TF Armadillo is assigned to our organic parent BDE, 2/10 IBCT (TF Guardian). I am not aware of any COMREL publication or changes.

Q11: How would you describe the level of variance in your staff's battle rhythm? In other words, does your staff usually perform similar duties at similar times during different days, or do your staff usually perform similar duties at different times during different days? A11:Our staff has little variance in our battle rhythm. We usually conduct similar duties at similar times during different days.

STATEMENT OF		TAKEN AT	Tower 22 BDOC	DATED2	20240213			
9. STATEMENT (Continued) When you got here, was there some kind of procedures in place for collecting and disseminating intelligence?								
No. As far as I'm tracking, the previous unit did nothing with intelligence. We made it up along the way. started playing around on chat surfer and found all these other chats that he got us to join if it had useful information in it.								
What are the BDOC procedures for when scan eagle lands?								
It usually takes off around 0700 and land at 1700, it would only land during my shift if due to weather. They weren't flying it much in January due to the weather. It would be a lot of delays until cancellations, usually around 1300.								
Are you aware of any communication between the S2 and ?								
The did a really good job of keeping the from knowing what was going on with his troops. S2 had no idea what was going on, I think they're in Kuwait right now with 1-58 <sup>th</sup> . They have come down here. was initially the S2, then became the new S2. TF Sentinel put out an INTSUM that was garbage. BN takes over here on March 15 <sup>th</sup> I think. The BN is dispersed all over CENTCOM, only Charlie Co. came to T22. Battalion came in December I think, with hey really had no idea what was going on at Tower 22. So I'm not tracking any coordination between and the S2. I know they were very angry that they were not being informed.								
Did you ever request an	intel soldier?							
We assumed they didn't someone that is EW trai of our battalion.		ce, or common sense, in Kuwait.	to make that happen suc is just the		have 's not part			
What is your sense of the	ne Sabreen intel accurac	y and what was the ba	ttle drill if that OSINT froi	n that source ca	ame out			
intel, only tracks and thi that would end up being seemed pretty accurate	The only thing we really could have done is got people to bunkers. I'm not tracking we ever went to bunkers just based off intel, only tracks and things like that. We know that information got leaked from the enemy because we would see reports that would end up being true. I know there was a guy I started following on twitter because he put out reports that seemed pretty accurate. When we saw that stuff, we pushed it to and let him handle it from there. If it related to ATG, we would push it to them. We would also discuss whatever else we were seeing.							
Were you aware that	had been notified	of the TIPPER that m	orning?					
I wasn't there when it ha	appened, but I heard ab	out that later on.						
What is the thought pro	cess for determining ho	w much of a threat so	mething is?					
We are always told to ju	ist stay vigilant and try t	o get eyes on anything	Ţ.					
Is it fair to say that most	of the threats were cor	ning from the north ra	ther than the south?					
Yes. Most often it was fr	rom the Syria/Iraq borde	er, from the North Eas	t.					
Is there anything else th	at you think we should	know?						
No not at this time.								
Anyone else we should	talk to?
